products

Although much of the talk in the aisles at the eighth Exclusively Housewares exhibition concerned the Tube strike and BHETA's pending merger with the BJGFF, the talk on the stands concentrated on the striking new products...

T&G launched a fresh summery lemon and lime design at the show. Each bowl is made from hevea with a hand carved and hand painted lemon and lime design. The lemon and lime bowls are available in large and small sizes and have salad servers to match. Like a G&T these fresh new bowls from T&G could not be displayed without a set of plain yellow and green painted bowls with salad servers, an ideal complement to the mix! These cheerful bowls will brighten up any kitchen or picnic table this summer and will cause a stir! They have an SRP from £3.99 to £16.95.

The Salter Trivet Scale combines a weighing scale and a trivet with a brushed stainless steel platform design. The scale allows you to weigh both liquids and solids with its Aquatronic function and as a trivet it doubles up as a safe platform to place hot pots and pans. The scale also has a large LCD display built-in the compact Slide In-Slide Out mechanism.

T&G launched a range of four fun animal design teapots, featuring a Pig, Chicken, Sheep and Cow. Fun and funky, they will add a touch of humour to that morning cup of tea! Each teapot is in cream earthenware with colourful animal characters, and comes with an SRP from £12.95 to £14.95.

To complement the teapots, T&G has launched a range of matching tea cosies to keep the tea piping hot. Each cosy is machine knitted and comes with holes for spout and handle for easy pouring. The tea cosies have an SRP from £9.99.
