FANTASTIC FRAGRANCE LAMPS

Ashleigh & Burwood are to display their range of Catalytic Fragrance Lamps at Spring Fair 2009. The range has over 60 lamp designs and has proved a huge hit with retailers and consumers throughout 2008. The stunning ornamental lamps utilise a century-old catalytic combustion technique that filters airborne odour-causing molecules. In addition the fragrance contained within the lamp is emitted to provide a gentle aroma to the room. The lamp offers a clean and efficient alternative to

burning candles or incense, as no flame is required and fragrance is spread quickly and evenly. The latest additions to the Fragrance Lamp range, which can be seen at the forthcoming International Spring Fair, include exciting new 500ml fragrances and a Lamp Gift Set containing a lamp and a top-selling fragrance.
