KICKFOX MAKES WASTE DISPOSAL EASY

The newest addition to Wesco's family of Pushboy & friends is the Kickfox. As with other Wesco bins, the stainless-steel opening flap swings backwards noiselessly as soon as the foot-pedal is pressed and closes silently thanks to an inbuilt damper. The large opening is positioned in an ergonomically suitable angle to allow particularly

effortless disposal of waste. The 'clever fox' is available in white, red, almond, graphite and black and at 78 cm high it fits under all standard kitchen worktops. Combine several Kickfox bins, for separate collection of plastics, glass, or normal waste in individual waste bins.

Wesco

Available now - RRP £289

STUNNING NEW CRYSTAL RANGE

Western House added a new range of stunning, contemporary cut 24% lead crystal to the already highly successful Luigi Bormioli Crystal Glass Collection at this year's show. The new range includes traditional shapes with subtle sweeping cuts (Cross Swirl and Halo) and contemporary shapes with striking modern cuts (Kriss Kross & Tornado) each consisting of wine, goblet, flute, tumbler and hiball glasses. As you would expect, the range is packaged in stylish high quality presentation boxes, and was very well received by visitors to the show.

NEW PATTERNS FOR 'VIVO'

Following the successful launch of its new brand vivo, Villeroy & Boch now has new patterns in the range on offer.

Lucky U and Lucky Loop were showcased alongside the company's promotional concept, Avant! The pattern is inspired from droplets of still water with key trend colours to add vitality to your table. No-fuss dining and multi-functionality are key.
