

Perfection for wine-lovers

Vinoteque by Accademia Luigi Bormioli is a range of professional, elegant and robust glassware for the wine enthusiast. To bring out individual characteristics wine should be served in the correct stemmed glass. The Vinoteque range is designed to enhance the enjoyment of all wine types. Luigi Bormioli has developed unique manufacturing technology to bring SON.hyx blown lead free crystal glass, titanium reinforced stems and drop stop coating. SON.hyx technology makes the glassware totally transparent, with high sonority and high resistance to breakage. Dishwasher safe to over 4,000 washing cycles with no deterioration to glass transparency or sparkle. Titanium reinforced stems hardens the glass surface reducing abrasion and increases resistance to breakage. Drop stop coating reduces friction to ensure perfect pouring into the glass. Creations for coffee-connoisseurs

Stylish and contemporary, new CitiZ machines provide affordable luxury for urban coffee lovers. Capitalising on the current trend for enjoying the finest food and drink at home, Nespresso - who proudly claim to be the leading innovator in luxury portioned coffee - has launched a new range of machines influenced by city life and urban culture.

Featuring three minimalist and sleek designs, CitiZ, CitiZ&Milk and CitiZ&Co, the new range features models that fit into the smallest of urban living spaces. Nespresso CitiZ is a single automatic espresso machine, perfect for the independent, city dweller with a passion for quality that comes with convenience. Nespresso CitiZ&Milk is a single automatic espresso machine with a built-in fresh milk-frother. Nespresso CitiZ&Co. allows the user to make two coffees simultaneously - perfect for those who enjoy entertaining, or the city-living couple who want to enjoy their coffee together.

Clever Cloths for Clever Profits

JML's Clever Cloths will polish your profits. Woven with silver, JML claim that Clever Cloths kill 99% of bacteria they come into contact with. What's more they don't need any chemicals - just add water and get wiping. By harnessing the antibacterial properties of silver, which is locked into the fabric, this cloth stops germs from spreading. Lab testing has shown it to be highly effective against E-Coli and Staphylococcus. This makes it excellent for cleaning worktops and food preparation areas. The structure

of the Clever Cloth means you can also ditch the bleach, chuck your soap and junk other household cleaners. It's made from tiny fibres that trap and absorb minute particles of dust and dirt. When water is added the cloth can clean grease and dirt without smearing - with just one wipe. They're allergy free and not impregnated with any chemicals. Using just water means that allergy sufferers won't. For more information call 0207 6913876 or email Jonathan.O'Connor@jmlgroup.com

90 years of great baking

Iconic KitchenAid® brand has enjoyed a cult following since it first introduced the original stand mixer back in 1919. Now ranked as one of the classic design icons of the 21st Century, the KitchenAid® Mixer celebrates 90 years with a limited edition colour, Candy Apple. Giorgio Baroffio, KitchenAid Marketing Manager comments: "We are thrilled to mark this occasion with the introduction of our limited edition Candy Apple Stand Mixer. Since the original launch of the mixer 90 years ago, KitchenAid has kept its legendary status in both professional and domestic kitchens. Our ability to combine beauty with the

latest innovations in technology has made KitchenAid the most coveted range of kitchen appliances in the world." Designed back in 1937 by style guru, Egmont Arens, the Stand Mixer looks as good in today's kitchen as it first did 90 years ago. It continues to use the same unique 'planetary action', which sees the beater rotate in one direction while it whisks and turns in the other. The 4.83 litre bowl has an ergonomic handle for a secure grip, plus the handy tilt-up feature makes it easy to clean. For more information call 01954 231 616 or visit www.kitchenaid.co.uk
